CATTLE ON THE RANGES.

A Hard Matter for Many of Them to Pull through the Winter.
There must necessarily be great loss of stock cattle this winter on the ranges, for they were poor, in many instances, when they were turned out, and the deep snow and cold weather will draw them up so that many of them will die before warm weather comes. If this cold snap continues for any length of time the loss will be very heavy. Stock men will have the satisfaction of knowing that what is left will be worth all the more, however, and possibly it will prove advantageous if one-third of the cattle do die. The GAZETTE's news from the Eastern part of the State is especially discouraging, for before the storm it was hard work for many of the cattle to get around, they were so weak. North of us the reports are better, for there is not as much snow and the weather has not been near so cold as in the Eastern part of the State, besides the cattle went to the winter range in far better condition than those at the East.

A MISERABLE WATER SERVICE.

A Growth That is Justified—People Finding Fault All Over Town.
The Water Company have evidently been caught out. The low pressure, or Orr-ditch pressure, is so very low that the service-pipes are freezing up all over town and it will cost a good deal to get them thawed out, and on the south side they are completely shut off from the town supply, owing to the pipes being left on the bridge exposed to the cold, and freezing up. Just what we should do if a fire should break out is hard to say, although the Water Company claim to have a reservoir full for fire purposes; but if this cold weather continues a few days longer with the low pressure now on the company are most sure to have trouble with the mains. It is a shame that this town cannot have a better water service, for certainly they pay enough.

Successful Presentation Assured.

Congressional Matters.

WASHINGTON, Jan. 7.—There was an unusually small number of members present when the House was called to order.

The prayer of the Chaplain for the protection of the sick Representatives was listened to with unwonted interest.

On motion of Herman of Oregon, a resolution was adopted calling on the Secretary of War for information relative to the improvement of the mouth of the Columbia river.

The Speaker stated to the House that (in accordance with the authority vested in him yesterday) he had administered the oath of office to Samuel J. Randall of Pennsylvania.

McComas of Maryland, offered a resolution that the House resolves itself into a Committee of the Whole for the consideration of the District of Columbia Appropriation bill, the committee to be governed by the rules of the last Congress.

Breckenridge raised a question for a consideration against the resolution. The speaker ruled that the question of consideration could not be raised against the resolution, because the resolution was in the nature of a motion regulating the business of the House.

Breckenridge said that the resolution went further than that, and provided for the adoption of a code of rules, and appealed from the decision, Carlisle of Kentucky, vigorously attacked the speaker's ruling. He argued that no question of consideration could be taken against a motion to go into a Committee of the Whole, but the pending resolution went far beyond that, and provided for a code of rules. He thought the time had come when the House, if it was to be governed by rules, should have those rules. Applause on the Democratic side.

The discussion was continued at length and was participated in by Crisp of Georgia, Bland of Missouri and McKinley of Ohio. The decision of the Speaker was sustained by a vote of 135 yeas to 144 nays.

Among the bills presented and referred was one by Faulkner to provide for the World's Fair at the National Capital in 1892.

Harris, in the absence of Beck, in his name introduced a bill to suspend the operations of the sinking fund laws until the further order of Congress. Referred.

Voorhees offered a preamble and resolution reciting the newspaper reports that Chambers, United States District Attorney at Indianapolis, had interfered in his official capacity to prevent the arrest of W. W. Dudley on the charge of feloniously violating the election laws of Indiana at the last Presidential election, and directing the Attorney-General to report what instructions the Department of Justice have issued to Chambers on the subject, and to furnish copies of such correspondence.

He asked that the resolution go over until to-morrow, when he would submit remarks upon it.

Morgan proceeded to address the Senate on the subject of a bill heretofore introduced by Butler, to provide for the emigration of persons of color from the Southern States. He had reached the conclusion that there was a natural incongruity and an irrepressible conflict between the races. To return the negro race to Africa is the only solution of the problem.

More Montana Senators.

HELENA, Mont., Jan. 7.—The Democrats met at noon in joint session, a quorum present. On the first ballot Clark and Maginnis were elected Democratic Senators from Montana, by a vote of 37 each. W. Clark was President of the late Constitutional Convention of Montana, and is a well-known banker and mine owner of Butte. Hon. Martin Maginnis has repeatedly represented Montana as delegate in Congress.

The Grave Gets Tired Yawning.

Seemingly, for certain wretched invalids who totter feebly along, though always looking as if they were going to die, but omitting to do it. They dry up, wither, dwindle away finally, but in the meantime, never having robust health, know nothing of the physical enjoyment, the zest of that existence to which they cling with such remarkable tenacity. They are always to be found trying to mend by tinkering at themselves with some trashy remedy, tonic or "pick me up" to give a flip to digestion or "help the liver." If such misguided folks would resort to Hood's Sarsaparilla, they would be well with them. This superb invigorant supplies the stamina that the feeble require, by permanently reinforcing digestion and assimilation. It overcomes nervousness, indigestion, malaria, kidney complaints, biliousness, constipation, rheumatism and neuralgia.

Governor Hill Opposes the Australian System.

By Associated Press.]

ALBANY, N. Y., Jan. 7.—Governor Hill in his annual message to the Legislature, was desirous of some changes in the laws relating to elections. He reviews the present election laws and says: Yet in spite of these excellent provisions our laws do not reach the two great evils which attend our elections—intimidation and corruption. These flourish unchecked, bringing shame upon our state, rendering our elections a mockery and threatening even the integrity and existence of our political institutions. It is indeed a sad allegation, which is made and not denied, that in some parts of our state at the recent presidential election, corruption was so unrestrained that the scenes at the polls resembled an auction rather than an election, and that in other places intimidation was so prevalent and undisguised, particularly at some manufacturing centers, the employers were virtually driven to the polls and actually instructed by their employers as to what ticket they should vote. The Governor reviews the Australian system, and finds some excellent things in it, but, as a whole, condemns it. He recommends the passage of a law which will provide for secret compartments for the voters, and claims that this provision alone, would do much to prevent corruption, and would secure the chief benefits of true electoral reform.

The Governor objects to an exclusively official ballot, and says that the provision which requires the voter to vote by placing a mark opposite the name of his candidate is unconstitutional, because it makes an educational qualification that the voter shall be able to read, otherwise he cannot know where to place the mark.

Her Condition Critical.

By Cable and Associated Press.]

BERLIN, Jan. 7.—The dowager Empress Augusta, suffering from influenza, has had a relapse, and her condition is considered critical.

At 2 p. m. the Empress and the Emperor's two eldest sons—Crown Prince William and Prince Frederick—and the Grand Duke and Grand Duchess of Baden, son-in-law and daughter respectively of the dowager Empress, were at her bedside.

Count Von Moltke left her palace at noon. He was much affected at her alarming condition.

Large crowds are assembled before the palace, and much sympathy is shown for the Empress.

Dowager Empress Augusta died at 4:30 to-day.

A Terrible Crime.

By Associated Press.]

HUNTINGTON, Va., Jan. 7.—Edwin Church, aged 15, made an attempt to poison his father, mother, brothers and sisters last Sunday night near Guyandotte. One child, a girl aged 13, has died, and a brother and sister are dying. The father, mother and a fourth child are in a critical condition. The act was done in revenge for a scolding which his father gave him. The murderer escaped.

Water Famine Feared.

By Associated Press.]

KANSAS CITY, Jan. 7.—A water famine is threatened in this city. By a sudden gorging of the ice in the Big Muddy above St. Johns the stage of water here has been lowered about two feet below the record. This "unlooked-for fall of water" caused the main section pipe at the water works to become exposed, and consequently no water can be pumped.

THE San Francisco Post says:

We make as much fuss over a little cold snap as though the thermometer showed ten or twelve degrees below zero. The fact is we need some cold weather to brace us up and set the blood tingling in our veins, and this little cold wavelet is the best thing that could have happened.

Come up this way for a day if you want to "brace up" with cold weather as a stimulant. Sixteen degrees below zero will fix you if it don't congeal your blood.

A WOMAN in New York to whom Dr. W. A. Hammond paid \$25 for her husband's brains—he being dead, of course—has brought suit against him for \$1,000, on the ground of insufficient payment. There are women who would think \$25 an exorbitant sum for their husband's brains, dead or alive, and who would incline very strongly to make a trade on the basis of a good deal less money.

"A Mother's Love."

The following is the way a Paris paper talks of Miss Helen Blythe, who is to present the play of "A Mother's Love" at McKissick's Opera House on Friday the 10th inst.: "Miss Blythe combines as an actress the perfect symmetry and art of the French school of acting, with the added strength of the Saxon. Her art is characterized by a vigor which never intrudes itself, and poising which never deteriorates into mere prettiness. She is a dramatic diamond. Her genius needs none of the fortuitous aid which chance or wardrobe extends."

All that Ride Continuously TAKE NOTICE.

It is a well-known fact that nine out of ten of all classes of people whose business calling is railroad, where they ride day in and day out, will sooner or later complain of severe pains in their backs. CAUTION! What does this mean? Ask yourselves the question. We will answer it for you. Your kidneys are fast becoming diseased, and if you neglect them there is one result—CERTAIN DEATH. We have had many cases, and hold testimonials of railroad men that have taken their trouble in time, and by the use of the greatest vegetable remedy that has ever been introduced in the world, viz: THE GREAT SIERRA KIDNEY AND LIVER CURE, have been cured and their kidneys strengthened to such an extent that they can pursue their vocations without fear. This wonderful remedy is becoming daily the most popular of any Kidney and Liver Cure that ever has existed. Give it one trial and you will send to us a testimonial to add to our large and fast increasing list. For sale by all druggists.
